Description

The geographic boundaries of Tooele County are described as follows:
Beginning at the middle point of a straight line drawn between a point on the west shore of Great Salt Lake at latitude 41 degrees north and a point on the east shore of said lake due west of the middle of the channel of the Weber River and north of the northwest corner of Kingston's Fort, thence southwesterly along said line to the west shore of said lake; thence west to the western boundary of the state; thence south to the second standard parallel south; thence east to the summit of the divide between Cherry and Faust Creeks; thence along the summit of the range next east of the Rush and Tooele Valleys to the northern end of said summit; thence northeasterly on a straight line through Black Rock on the shore of Great Salt Lake to the point of beginning.

Narrative

This map has been created to fulfill the requirements under Section 17-50-104, State of Utah Code: Counties of the state – County boundaries maintained by Lieutenant Governor. The counties of the state are those whose geographic boundaries are described in the official county boundary records maintained by the office of the lieutenant governor and may be changed only in accordance with the provisions of this title. The office of the lieutenant governor shall maintain the official county boundaries for the counties of the state and update those boundaries upon the lieutenant governor's issuance, under Section 67-1a-6.5, of an applicable certificate, as defined in that section. The county boundary described on this map has been created from the original county description. If changes have been made to the county boundary in accordance with the provisions outlined in state code, the changes are shown in the graphic representation of the boundary; the calls from the boundary adjustment plat have been added to the original description and a reference to the certification document points to the area of change. This map provides a general graphic location of the boundary without being tied to the ground using the Public Land Survey System. If more accurate information is needed, a ground survey is required.

Certification

I Sean A. Fernandez, Professional Land Surveyor, as prescribed by the laws of the State of Utah and holding license No. 312775 do hereby certify: That this map was prepared by me or under my direction together with the best available data; That due care was exercised in preparing this map; That this map is a geographic representation of the County Boundary to the best of my knowledge and conviction.
