**Narrative**

This map has been created to fulfill the requirements under Section 17-50-104, State of Utah Code: Counties of the state – County boundaries maintained by Lieutenant Governor. The counties of the state are those whose geographic boundaries are described in the official county boundary records maintained by the office of the lieutenant governor and may be changed only in accordance with the provisions of this title. The office of the lieutenant governor shall maintain the official county boundaries for the counties of the state and update those boundaries upon the lieutenant governor's issuance, under Section 67-1a-6.5, of an applicable certificate, as defined in that section. The county boundary described on this map has been created from the original county description. If changes have been made to the county boundary in accordance with the provisions outlined in state code, the changes are shown in the graphic representation of the boundary; the calls from the boundary adjustment plat have been added to the original description and a reference to the certification document points to the area of change. This map provides a general graphic location of the boundary without being tied to the ground using the Public Land Survey System. If more accurate information is needed, a ground survey is required.
