Description

The geographic boundaries of Duchesne County are described as follows:

Beginning at a point on the summit of the Uintah mountains two sections and one-fifth mile west of the point where the Uintah special meridian intersects the summit of the Uintah Mountains, thence southwesterly along the summit of the mountains to a point due north of the center line between the east and west range lines of range 9 west of the Uintah special meridian; thence south intersecting and thence following the center line of range 9 west of the Uintah special meridian to a point where it intersects with the second standard parallel south, Salt Lake base and meridian (which point is also an extension east from the Salt Lake base and meridian); thence east to the line between ranges 9 and 10 east of Salt Lake meridian; thence south to the township line between townships 11 and 12 south of the Salt Lake base and meridian; thence east along this township line to a point south of a point located two sections and one-fifth mile west of the Uintah special meridian at the south boundary of the former Uintah Indian Reservation; thence north parallel with the 110 degrees and 00 minutes west longitude to said point; thence northerly, adjacent to and west of the Uintah special meridian a distance of two sections and one-fifth mile to the point of beginning.

Narrative

This map has been created to fulfill the requirements under Section 17-50-104, State of Utah Code: Counties of the state – County boundaries maintained by Lieutenant Governor. The counties of the state are those whose geographic boundaries are described in the official county boundary records maintained by the office of the lieutenant governor and may be changed only in accordance with the provisions of this title. The office of the lieutenant governor shall maintain the official county boundaries for the counties of the state and update those boundaries upon the lieutenant governor's issuance, under Section 67-1a-6.5, of an applicable certificate, as defined in that section.

The county boundary described on this map has been created from the original county description. If changes have been made to the county boundary in accordance with the provisions outlined in state code, the changes are shown in the graphic representation of the boundary; the calls from the boundary adjustment plat have been added to the original description and a reference to the certification document points to the area of change. This map provides a general graphic location of the boundary without being tied to the ground using the Public Land Survey System. If more accurate information is needed, a ground survey is required.

Certification

I Sean A. Fernandez, Professional Land Surveyor, as prescribed by the laws of the State of Utah and holding license No. 312775 do hereby certify: That this map was prepared by me or under my direction together with the best available data; That due care was exercised in preparing this map; That this map is a geographic representation of the County Boundary to the best of my knowledge and conviction.
