Description

The geographic boundaries of Morgan County are described as follows:
 Beginning at the point on the summit of the Wasatch range of mountains nearest to the eastern headwaters of the Ogden river, thence southwesterly along the summit of said range passing south around the headwaters of the Ogden river to the summit of the main Wasatch range southeast of Ogden City; thence southerly along the summit of said range crossing the Weber canyon and river to the summit of the cross range through which the upper canyon of East Canyon creek runs; thence easterly along the summit of said last mentioned range to, and thence northerly along, the summit of the range between East Canyon creek and the Weber river to the Weber river; thence northeasterly across said river and along the summit of the high land between Lost and Echo Canyon creeks to the summit of the Wasatch range separating the valley of the Bear River from the valley of the Weber river; thence northwesterly along the last mentioned summit to the point of beginning.

Narrative

This map has been created to fulfill the requirements under Section 17-50-104, State of Utah Code: Counties of the state – County boundaries maintained by Lieutenant Governor. The counties of the state are those whose geographic boundaries are described in the official county boundary records maintained by the office of the lieutenant governor and may be changed only in accordance with the provisions of this title. The office of the lieutenant governor shall maintain the official county boundaries for the counties of the state and update those boundaries upon the lieutenant governor's issuance, under Section 67-1a-6.5, of an applicable certificate, as defined in that section. The county boundary described on this map has been created from the original county description. If changes have been made to the county boundary in accordance with the provisions outlined in state code, the changes are shown in the graphic representation of the boundary; the calls from the boundary adjustment plat have been added to the original description and a reference to the certification document points to the area of change. This map provides a general graphic location of the boundary without being tied to the ground using the Public Land Survey System. If more accurate information is needed, a ground survey is required.

Certification

I Sean A. Fernandez, Professional Land Surveyor, as prescribed by the laws of the State of Utah and holding license No. 312775 do hereby certify: That this map was prepared by me or under my direction together with the best available data; That due care was exercised in preparing this map; That this map is a geographic representation of the County Boundary to the best of my knowledge and conviction.
