Description

The geographic boundaries of Weber County are described as follows:
 Beginning at the intersection of the summit of the Wasatch Range north and east of the Ogden Valley and the summit of the range separating the Bear Lake Valley from the Cache Valley, thence westerly to the hot springs near the county road north of Ogden along the summits of the Wasatch Range and the spur range terminating at said hot springs; thence west to the line between ranges 3 and 4 west; thence southwesterly in a straight line to the middle point of a line drawn from a point on the east shore of Great Salt Lake west of the middle of the channel of the Weber River north of the northwest corner of Kingston's Fort to a point on the west shore of said lake at latitude 41 degrees north; thence northeasterly along said last described line to the east shore of Great Salt Lake; thence east to the middle of the channel of the Weber River; thence up the middle of said channel to a point where crossed by the summit line of the Wasatch Range; thence northeasterly along the summit of said range around the headwaters of the Ogden River to the point of beginning.

** For a more detailed boundary description contact the Weber County Records office, for GPS Surveyed sections.

Narrative

This map has been created to fulfill the requirements under Section 17-50-104, State of Utah Code: Counties of the state – County boundaries maintained by Lieutenant Governor. The counties of the state are those whose geographic boundaries are described in the official county boundary records maintained by the office of the lieutenant governor and may be changed only in accordance with the provisions of this title. The office of the lieutenant governor shall maintain the official county boundaries for the counties of the state and update those boundaries upon the lieutenant governor's issuance, under Section 67-1a-6.5, of an applicable certificate, as defined in that section. The county boundary described on this map has been created from the original county description. If changes have been made to the county boundary in accordance with the provisions outlined in state code, the changes are shown in the graphic representation of the boundary; the calls from the boundary adjustment plat have been added to the original description and a reference to the certification document points to the area of change. This map provides a general graphic location of the boundary without being tied to the ground using the Public Land Survey System. If more accurate information is needed, a ground survey is required.

Certification

I Sean A. Fernandez, Professional Land Surveyor, as prescribed by the laws of the State of Utah and holding license No. 312775 do hereby certify: That this map was prepared by me or under my direction together with the best available data; That due care was exercised in preparing this map; That this map is a geographic representation of the County Boundary to the best of my knowledge and conviction.
