Re: Eligibility for Participation of a Newly Created Entity in the Utah State Retirement Systems

Dear Chief Bassett:

When a governmental entity is being incorporated or created, Utah law requires the Utah State Retirement Office ("Office") to provide a letter to that entity identifying the potential provisions under Utah Code Title 49, Utah State Retirement and Insurance Benefit Act ("Retirement Act"), with which it shall comply. *See* Utah Code Ann. § 67-1a-6.5(3)(d). This letter serves as the official notice for the South Davis Metro Fire Service Area ("Service Area"), a newly created Special Service Area, transitioned from the South Davis Metro Fire Agency (the "Agency").

The Agency is already a Participating Employer with URS, and based upon the information provided, the Office has determined that the Service Area is also an "employer" under the Retirement Act as a political subdivision of the state by virtue of its status as a Special Service Area. Accordingly, the Service Area is eligible and must comply with the participation requirements of the Retirement Act.

Please be aware that for purposes of the Retirement Office, the entity's name change will be recorded, but a new application for participation will not be required. The Service Area may continue participation under the Agency's existing employer group number with associated employee numbers and information.

As a reminder, the Service Area will continue to be subject to all applicable provisions of the Retirement Act with which the Agency has been complying. This means that at the present time and throughout the future, the Service Area is required by law to participate with URS if and when it offers any type of retirement benefit to its employees.

The Service Area's public employees will continue to be covered under either the Tier I or Tier II public employee retirement systems, and firefighter service employees will be covered

under the separate Tier I or Tier II systems for firefighter service employees, as described in the Retirement Act.

In addition, Participating Employers of URS are required by section 49-11-606 to "cover all employees eligible for service credit under this title." As such, the Service Area will be required to cover all eligible employees, pursuant to the eligibility rules found in the Retirement Act.

Please note that the above-referenced laws are those used to determine eligibility for participation, and are not the only laws with which a participating employer must comply. Participating employers are required to "inform themselves of their rights and obligations" under Title 49 and should become familiar with all provisions of the Retirement Act. At any time, URS would be happy to provide additional education about the requirements with which the Service Area must comply as a participating employer.

Additionally, please be aware that should the Service Area fail to cover all of its employees or otherwise comply with participation requirements, the Service Area's employees may have a claim against it for service credit under the Retirement Act, which the Office is required to enforce. Under the Retirement Act, such a claim would include all past employer contributions, interest, and in some cases, penalties. See Utah Code Ann. § 49-11-601(3).

Please do not hesitate to contact me if you have any questions.

Sincerely,

WHEREAS, on August 11, 2015, the Davis County Commission adopted a Resolution proposing the creation of a Service Area for the provision of fire protection, emergency medical response, paramedic, emergency response services, ambulance services and related services. The Service Area proposed by that Resolution, the creation of which is approved by this Resolution, included the area within the corporate limits of the cities of Bountiful, Centerville, North Salt Lake, West Bountiful, Woods Cross and all property in the unincorporated area of Davis County located south of an east/west extension of the northern corporate limits of Centerville City, north of the Salt Lake County Line, west of U.S. Forest Service line, and east of the Great Salt Lake as described more fully on the map attached hereto as **Attachment A**. In the event that not all of the enumerated governmental entities approve the creation of the Service Area, the boundaries of the Service Area shall be reduced by the exclusion of the non-approving entity and the map shall be adjusted accordingly prior to its submission to the County Surveyor and Lieutenant Governor for approval. The proposed Service Area shall be known as the South Davis Metro Fire Service Area;

WHEREAS, the proposed Service Area shall be funded through revenues that may include member assessments, a property tax levy, revenues generated by its operations and such other revenues that are authorized by law. Assessments will be made in accordance with the provisions of a new interlocal agreement entered into among the member entities and the Service Area;

WHEREAS, a Public Hearing on the creation of the proposed Service Area was held the 15th day of September, 2015, at the Davis County Commission Chambers, 61 South Main Street, Farmington, UT at 6:00 pm. In accordance with UCA Sec. 17B-1-211, the County Clerk in conjunction with the City Recorders of the participating cities published notice of the Public Hearing in the Davis County Clipper, a newspaper of general circulation, and on the Utah Public Notice Website in accordance with UCA 52-4-202;

WHEREAS, the statutorily mandated protest period began on September 15, 2015, and ended on November 16, 2015;

WHEREAS, Davis County received zero protests constituting zero percent of the number of votes cast in the included portion of the unincorporated area of the county for the office of President of the United States at the most recent presidential election prior to the date of the adoption of the resolution and zero% of the value of all of the private land area in the included portion of the unincorporated area of the county. The County Commission determines

and finds the protest levels are less than the levels required by UCA Sec. 17B-1-213 for terminating the creation of the Service Area; and

WHEREAS, the County Commission is authorized to proceed with the creation of the Service Area and having considered all written or verbal input provided the County Commission during the public hearing and thereafter believes that it is in the public interest to approve the creation of the Service Area for the provision of fire protection, emergency medical response, paramedic, emergency response services, ambulance services and related services with the boundaries as described.

NOW, THEREFORE, BE IT RESOLVED by the Davis County Commission as follows:

Section 1. Fire Service Area Approved. The County Commission determines that it would be in the best interests of its citizens to create the Service Area even if all proposed entities do not approve its creation and directs that, in the event that not all of the enumerated governmental entities approve the creation of the Service Area, the boundaries of the Service Area shall be reduced by the exclusion of the non-approving entity and the map shall be adjusted accordingly prior to its submission to the County Surveyor and Lieutenant Governor for approval.
